

Expert on Natural Stone

About Us

Kucukaga Marble was established in 1996 in Afyonkarahisar/Turkey, the heart of the natural stone industry.

Kucukaga carries out production in its own quarries and in its modern factory established on an area of 30.000 m2 with more than 200 employees. Our company follows the developments in the natural stone sector and produces the latest technology machines. Kucukaga, which prioritizes customer satisfaction, exports natural stones to many countries, primarily the USA, European countries and Australia.

Kucukaga has taken part in many types of projects such as schools, hospitals, shopping malls, business centers, plazas, sites and has been the leading solution partner of many builders and architects.

Visionand Mission

Kucukaga Marble has been continuing to work to become one of the leading companies in the sector offering qualified and fast services for its customers with its expert team. Our company, which always gives priority to the customers and their demands, has been carrying on necessary research and development activities.
